

**Canadian Evaluation Society Post-Secondary Evaluation-Related Courses
June 2001**

The following list of evaluation-related courses is provided for members' information. The courses were identified during 2000 to assist in the development of the CES Core Body of Knowledge. They constitute only a "convenience" sample of the evaluation-related courses given in Canada. They were identified either by a contractor from web site information or by CES chapters from their local knowledge. CES is not familiar with the quality of the content. Some of the information for the individual courses, e.g., the instructor, year or term, may have changed.

We ask any post-secondary institution that would like an entry added, deleted or modified to please get in touch with:

Sue Licari
Executive Secretary
Canadian Evaluation Society
