

CES e-ESSENTIAL SKILLS SERIES

This ten-week course, developed by the Canadian Evaluation Society, provides participants with foundational knowledge of the main models and practices associated with the profession of evaluation. Participants gain experience of the essential elements of program evaluation.

- Prior knowledge of evaluation and of social science research methods is not required.
- There are no examinations or coursework.
- Students are expected to complete 10 modules 1 per week independent of the instructor and 7 assignments and participate in the on-line discussion forum with facilitator and other learners.
- Participation in all 10 modules, completion of assignments and participation in on-line discussion forum, entitles you to a Certificate of Completion from the Canadian Evaluation Society.
- The Certificate of Completion can be applied towards the application of the Credentialed Evaluator (CE) designation.
